Dear Parent/Carer,

External façade repair programme for Colvestone

As part of Hackney's commitment to improving their estate, Colvestone is in the round of current works to improve the façade and externals of the building. This will ensure our beautiful grade II listed building is preserved for future generations of children!

A company called Quinns will be carrying out work to the external façade of our school including:

- roof tiling
- masonry
- drainage repairs
- windows
- any other repairs to the external façade

The programme will start this half-term and continue into the school summer holidays.

The impact on the school will be minimised as far as possible. There will be a porta cabin in the playground and a skip. These will not impact on pupil playtimes and be appropriately sectioned off.

There will be some scaffolding erected around particular parts of the school for certain periods but again this will have minimal impact on children's access to the playground as the majority is to the rear of the building.

When the reception classroom was being refurbished last summer, our pupils had full access to most of the playground so we are confident this project will allow the same.

Thank you for your on-going support.

Miss Caroline King
Executive Head Teacher
